Rocky Point- Premium Potting Mix

Premium Potting Mix is the ideal blend for both a quick start and a long term sustained feed for all plants. Boosted with slow and controlled release fertiliser, it feeds your plants for over 12 months and has been a favourite with growers for generations with a tried and tested professional grade formula.

Available in 30 L & 60 L bags

Premium Potting Mix

A professional grade mix designed to feed your plants for over 12 months

Available in 30 L & 60 L bags

Better Earth Selection System

Premium

Certifications

Simply the best premium potting mix available on the market. Premium Potting Mix is a unique blend of organic composted material, coir fibre, slow release fertilisers, zeolite, fish & seaweed extract, gypsum, lime, iron, natural rock trace elements and a natural wetting agent. Premium Potting Mix is the ideal blend for both a quick start and long-term sustained feed for all plants. Boosted with quality slow and controlled release fertiliser, it feeds your plants for 12-14 months.

What's in Premium Potting Mix?

- Slow & Controlled Release Fertiliser – For over 12 months of sustained feeding
- Granular Wetting Agent – For maximum water retention
- Coconut Fibre & Coconut Chip – An organic water saver & root stimulator
- Fish & Seaweed Extracts – For stronger, healthier plant growth
- Zeolite – For less fertilising & less watering
- Organic Compost – Superior nutrient availability
- Balanced Input of Trace Elements – Plant multivitamins

Features & Benefits

- Excellent growing results from a 3 stage fertiliser addition
- Provides nutrients to plants for over 12 months
- Superior moisture retention properties with excellent drainage
- Contains Coconut Fibre and Coconut Chip; a renewable, sustainable and eco-friendly product
- Professional nursery grade potting mix

How to Use:

Most plants need re-potting at least once and sometimes twice a year. Before re-potting give your plant a thorough wetting down and choose a bigger pot, at least one third bigger than the initial pot.

1. Place a small amount of Premium Potting Mix in the base of the pot.
2. Position the plant in the centre of the pot and fill around edges to within 20 mm of the top of the pot with Premium Potting Mix.
3. Press down gently
4. Water in well straight away, and then regularly over the next few weeks depending on plant positioning and time of year.

Order Code: 2-RP-POT-30

Size: 30 L

Bags per Layer: 6

Bags per Pallet: 78

Order Code: 2-RP-POT-60

Size: 60 L

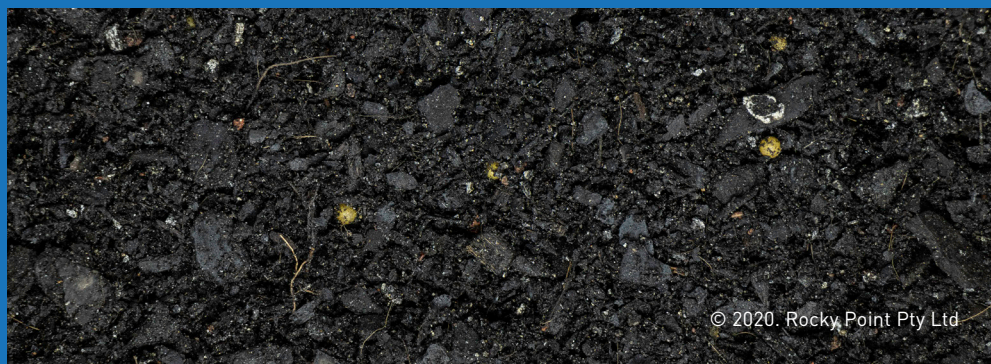

Bags per Layer: 4

Bags per Pallet: 40
